## WV businesses like to file monthly taxes online

Businesses doing business in West Virginia apparently like the state's online filing system to file their tax returns.

Since the May 15 launch of MyTaxes, 9,418 taxpayers have used the system to file more than 12,000 returns. Those returns were worth about \$54 million in taxes.

State Tax Commissioner Christopher Morris says the online system allows businesses to view, pay and file their state taxes 24 hours a day, seven days a week.

And unlike state offices, the system is open for business even on holidays.

Businesses can access MyTaxes through <http://mytaxes.wvtax.gov>.
